

## TECHNICAL DATASHEET

# Air Source Heat Pump Water Heater

**S SERIES-FLOOR** // RESIDENTIAL USE // COMMERCIAL USE

All-in-one aérothermal heat pump for domestic hot water with integrated storage tank. Available in 200L and 300L versions for floor installation. It harnesses energy from outdoor air and generates up to four times more heat than an electric water heater with the same energy consumption, reducing both energy bills and CO<sub>2</sub> emissions.

- ✓ Horizontal/vertical design, space-saving.
- ✓ Water outlet temperature up to 75°C.
- ✓ Intelligent and automatic operation.
- ✓ Stainless steel tank, long service life.
- ✓ Sterilization function, high-pressure protection.
- ✓ External condenser coil, safe and reliable.

## FEATURES

HIGH EFFICIENCY

SMART CONTROL

HEATING &amp; COOLING

ECO FRIENDLY

LOW NOISE

# Air Source Heat Pump Water Heater

S SERIES-FLOOR

MODEL	X7-200L-A	X7-300L-A
<b>PARAMETER</b>		
Input power (kw)		0.45
Current (A)		2.1
Voltage		220 - 240
Heating capacity (KW)		1.8
Highest water temperature		75°C
Refrigerant		R290
Electric heater (KW)		6.8A
Max current (A)		2
Max input power (kw)		2.8
Unit Size (mm)	Φ560 × 1,750	Φ650 × 1,920
Net weight (kg)	72	110
Noise (dB)		46

**NOTES**

\*Testing condition is 20 degrees and water inlet/outlet is 15 / 55 degrees.
